

STAFFING SOLUTIONS

MBI understands that a company's employees are its most valuable asset. Finding the right people at the right time is vital to our clients' success. Powered by Excellence for over 20 years, MBI has become a thought leader in business consulting. In our staffing practice, we apply these same skills to first understand the business goals and culture of our client before we recommend a candidate.

Our "intelligent placement" approach leads to a far greater success rate of candidate placement than simply offering stacks of resumes and hoping to find a fit. In addition, MBI's ongoing engagement with our clients and candidates leads to long-term placement success. We call this the 'MBI Advantage.'
